PERSONAL DETAILS

Date of Birth: 03/01/2005

Father's Name: Ganapati Anant Bhat

Address: Sawantwadi, Maharashtra, India

Hobbies: Exploring UI/UX Design, Gaming, Reading Novels, Drawing Portraits

PROFESSIONAL SUMMARY

Passionate Software Developer with hands-on experience in building mobile and desktop applications using modern technologies. Skilled in Flutter for cross-platform mobile development and proficient in C/C++ and Python for application logic and system-level programming. Experienced in integrating backend services like Firebase and databases such as MySQL and MongoDB to develop scalable and user-friendly applications. Strong problem-solving ability with a focus on performance, usability, and real-world implementation. Eager to contribute to innovative software solutions while continuously learning and adapting to new technologies.

TECHNICAL SKILLS

Languages	C#, Python, Dart, C/C++, SQL, HTML/CSS, R, Java, Javascript
Frameworks & Tools	.NET(Basic), Flutter(Professional), React(Intermediate), MERN Stack(Basic)
Databases	SQL Server, Firebase Realtime DB, MySQL, MongoDB
Development Tools	Visual Studio, VS Code, Git & GitHub, Android Studio
Concepts	Version Controlling, REST API Integration, UI/UX Principles, Agile Basics

PROJECTS

1. sankalUP | Flutter Stack · Firebase

- Built a cross-platform mobile application of Learning Management System and Deployed
- Added genre-wise charts and monthly summary dashboards using FlutterCharts library.

2. UniEventPortal | HTML · PHP · MySQL

- Developed a website for centralised event management across many colleges
- Implemented user authentication (email/password) with secure session management.
- Designed responsive, intuitive UI with priority labels, due-date reminders, and dark mode support with ANT-Design principles.

3. RemPass | Flutter Stack · SQLite

- Created an android native password manager application to manage personal credentials safely.
- Implemented using Zero-Trust Architecture.
- Generated .xml files as security report and for backups

4. Deut | Flutter Stack · HIVE

- Built a mobile app of utilities for vast audience.
- Integrated HIVE for local storage.

5. Covid-19 Tracker | Flutter Stack · Rest APIs

- Built a mobile app to track Covid-19 cases across the world.
- Handsome amount of experience on Rest APIs

EXPERIENCE

TMS (*Website*) Nov 2025

- Contributed in creating a role specific dashboard in Temple Management System.
- Gained understanding of data security best practices and soft delete procedures.
- Documented database schemas and assisted in optimizing slow-running queries.

Coco-Mart (*Mobile Application*) Feb 2026

- Contributed in creating registration flow and Order Delivery Process
- Gained understanding of delivery processes.

EDUCATION

B.Sc.I.T. – Mumbai University – Sant Rawool Maharaj Mahavidyalaya, Kudal 2023 – 2026

HSC – Maharashtra State Board – Shree Pancham Khemraj Jr. College 2021 – 2023 | 62.33%

SSC – Maharashtra State Board – Shree Janata Vidyalaya, Talawade 2019 – 2021 | 92%

CERTIFICATIONS

- Linux Fundamentals – LearnQuest (Mar 2026)
- Cybersecurity Fundamentals – Google (Aug 2025)
- Technical Support Fundamentals – Google (Aug 2025)

ACHIEVEMENTS

- Delivered a live mobile application used by 50+ live users.
- Trained and mentored fellow students in Software Development Concepts.
- Built and deployed 4+ end-to-end software projects with real-world applications.
- Showcased engineering solutions through live demonstrations and technical competitions.
- Explored multiple UI/UX design principles like ANT-Design, Material Design, Flux Design, Flat Design
